Vehicle Safety Storage

Vehicle Safety Storage System

Ensure the security of your firearms, sensitive documents, and valuable equipment with our premium Vehicle Safety Storage System. Engineered with advanced locking mechanisms and reinforced materials, it guarantees top-tier protection and ensures that your essential gear is secure. Built to withstand any theft or tampering attempts, our system keeps your items safe in all situations.

Experience unmatched convenience and organisation with customisable compartments that ensure everything has its place. This eliminates clutter and makes your equipment easily accessible when you need it most.

Invest in our Vehicle Safety Storage System today and enhance the security, organisation, and efficiency of your vehicle. Equip yourself with the essential protection you need to focus on your mission and drive confidently, knowing your gear is secure.

Endurus

Safety Storage UTILITY

Challenge Intruders - Ultimate security, accessible only by keyholders.

Ultimate Security - Equipped with four locking pistons, ensuring your valuables are always protected.

Force-Resistant Lock - The handle disconnects from the locking pistons when secured, preventing forced entry.

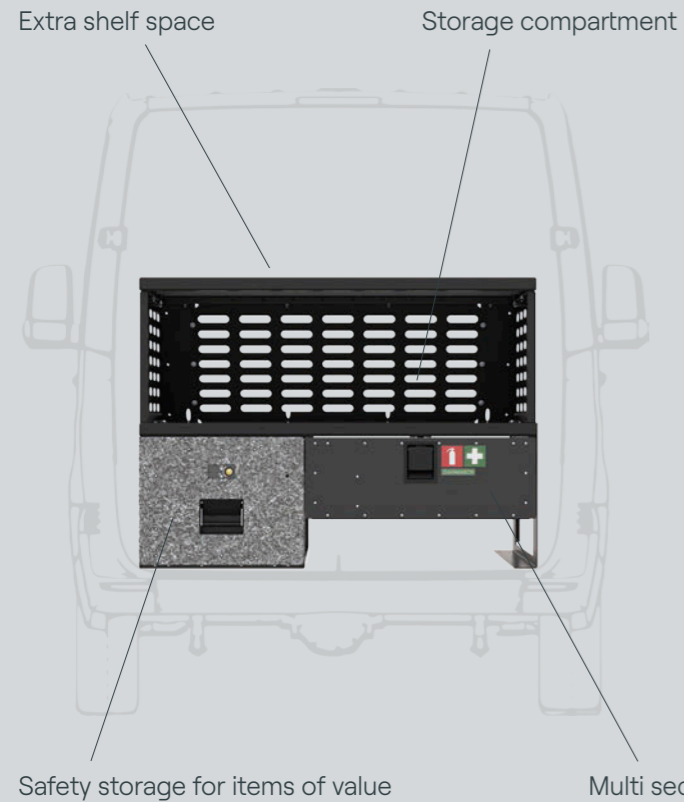

Intelligent Alerts - Advanced sensors display open/closed and locked/unlocked statuses, connectable to your dashboard for instant notifications.

Engineered for Endurance - Slides are built to bear high loads, ensuring lasting performance.

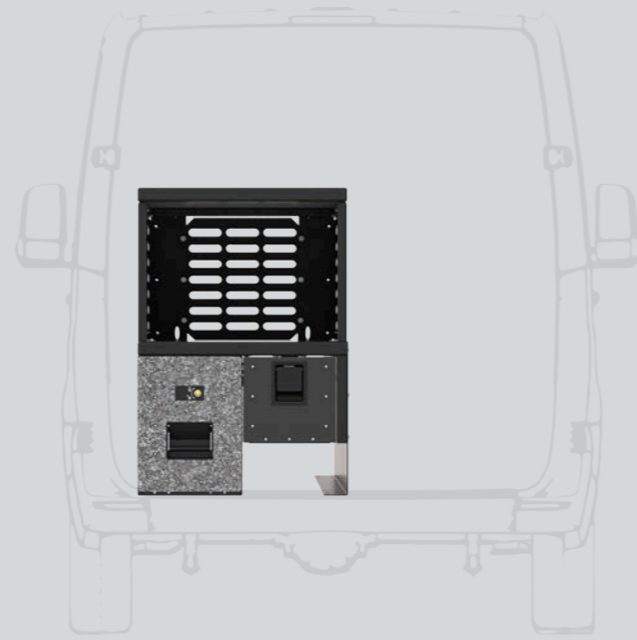

Easy Access - With over 90% extension, enjoy a clear view and easy reach of all your items.

Build your own set up with our modular solution of the Safety Storage UTILITY-system

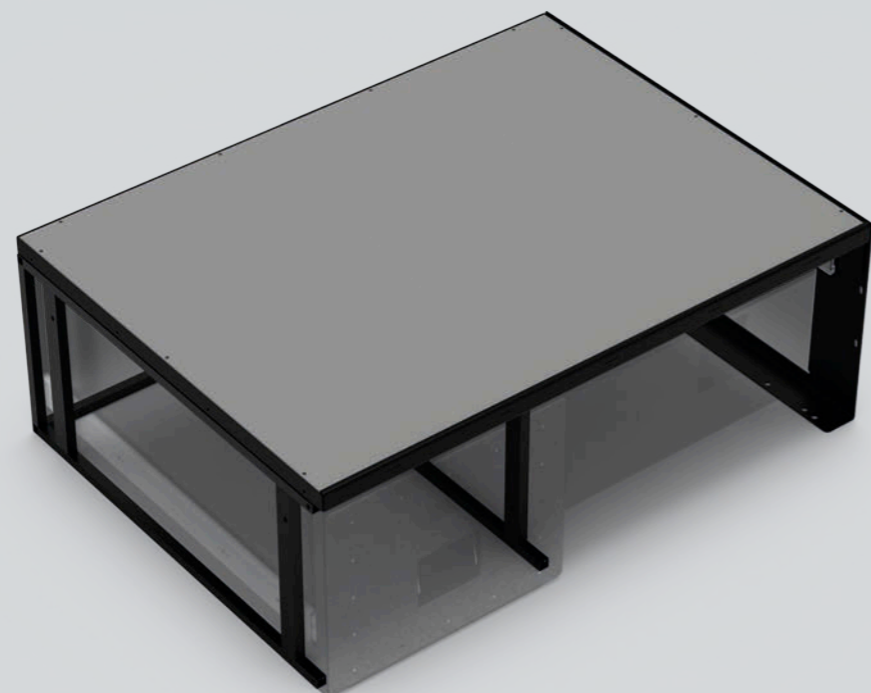

Modular system

The UTILITY storage system is modular and can be customised to fit your vehicle and your needs. The Safety Storage drawers can be customised in size and installed side by side if the need for additional safe storage is prioritized.

The base frame can be installed with or without the Top shelf in order to best fit your needs. The Multi-section storage can also be ordered in different sizes depending on your need for storage of non-essential equipment.

All storage units can be fitted with customised inserts in order to safely secure your equipment during transport.

Safety Storage AUTO

Challenge Intruders - Ultimate security, accessible only by keyholders.

Ultimate Security - Equipped with six locking pistons, ensuring your valuables are always protected.

Intelligent Alerts - Advanced sensors display open/closed and locked/unlocked statuses, connectable to your dashboard for instant notifications.

Engineered for Endurance - Created for durability, ensuring consistent performance over time.

Discreet Design - Its sophisticated, hidden design merges flawlessly with your car's interior, making it virtually unnoticeable from the exterior.

Versatile Placement - Offering flexible installation options, with a compact design, it's optimised to fit smaller vehicles, behind the back seat or in the trunk.

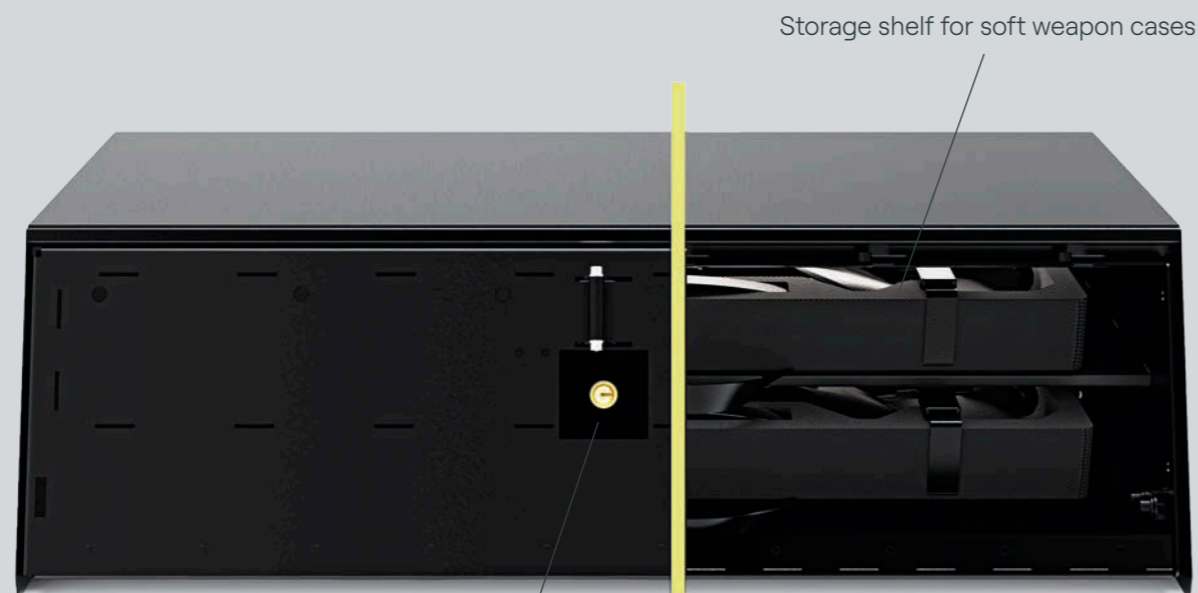

Safety Storage AUTO

Features

- Designed to be fitted inside a trunk in sedan vehicles

Endurus products is a result of engineering – anything is possible!

We are eager to learn about the challenges you face regarding secure transportation. By understanding your needs, we can collaborate to develop the best possible product that meets your requirements.

Together, we can contribute to creating a safer world.

Our modular system can be customised to fit your needs

About Endurus

In a world that moves faster than the beat of time itself, our vision of enduring resilience and sustainability grows ever stronger. In an age where the moment reigns supreme, we cast our gaze further ahead. Time is our constant companion in our quest to efficiently craft lasting solutions for increased safety.

Rooted in half a century of product development, our brand carries a timeless ambition: to merge the wisdom of yesterday with the needs of tomorrow. With our focus on sustainability over time, we challenge the current approach to product lifecycles. For us, it's not enough to be reliable today and tomorrow; we see it as a vital promise to our customers that what we deliver remains steadfast far into the future.

Our approach to crafting products reflects our philosophy towards the passage of time. Each product is a tribute to durability, and every solution is a step towards a safer world. By adapting to the unique needs that emerge over time, we ensure that each product is more than a temporary tool – it's a part of our vision of lasting safety.

Yet, our commitment to long-term thinking doesn't make us static in our operations. Every moment is precious, and we take pride in our ability to deliver swiftly and precisely: while we plan for the future, we are always ready to meet today's needs.

We consider it our duty to make the most of every second and minute in our continuous pursuit of improvement, protection, and preservation. That's why we create products that contribute to increased safety today, and for all the tomorrows to come.
