

360 LIGHTWEIGHT RAILMOUNT

For unprotected vehicles (soft skin)

PRODUCT FEATURES

- For unprotected vehicles (soft skin)
- Directly on a vehicle roof or on a roof platform.
- The low weight eliminates the need for cranks operating the rotation and elevation.
- The weight of the weapon is counter balanced with springs and locks in the desired position as soon as the release lever is disengaged.
- Weapon interface with G3-taper

OPTIONS

LRM 15 is modular and can be equipped with various accessories such as barrel cooling bed and holders for spare ammunition boxes.

- Weather protection cover
